

Dear Parents:

Each year, the Relay For Life of Cheshire Committee strives to provide a safe and enjoyable event for the members of our community.

One of the initiatives we have put in place during the past few years is the requirement of all visitors to check in at the Security Desk when arriving after 11 PM. We feel this helps ensure the safety of our families and friends. It is not an effort to keep anyone affiliated with the Relay For Life from being at this worthwhile event - it is meant to keep out people who have no purpose there and may cause harm to those participating.

In providing this information in this letter, we are hoping that it explains why we require visitors check in at the Security Desk when arriving after 11 PM - it is for the safety of our family and friends. With this in mind, please make an effort to find out from your teenager their **Team Name**, their **Team Number** as well as their **Site Number**. It will help us help you find them, as well as keep unwanted visitors away from our event. Our families and children participate in this event also and we really want everyone to be safe while enjoying the event we plan so carefully each year.

Also, please note that this event is held on school property and punishment for abuse of alcohol, tobacco or drugs will follow the same disciplinary procedures as the Cheshire High School Student Handbook dictates.

Thank you for your cooperation and allowing your teen to participate.

Sincerely,

Committee Members of Relay For Life of Cheshire
